**Spline 3d Design**

**Procreate I Procreate Dreams**

## ExPerience

**Kpoints Online**  
Video Editor I Animator

December 2023- March 2024

In the initial months of the job my role included editing long form (LF) and short form (SF) videos. The LF videos included lectures where i had to go through the video(1-2 hour) for any technical errors or blank spaces. The SF included making quick concept understanding videos from the LF under 1 minute and adding suitable graphics and texts accordingly. I've edited approximately 30 LF and 15 SF .Later, in the last month i was given the task of making some creative videos, where i explored my talent my created 2 short form animation videos - 1 for Valentine's Day and the 2 for the occasion of Holi.
